### **Installation of 8 97 1 service pack IPC errors for**

Hi everyone ok - I'm trying to install a new Enterprise Server (Application Server) using the 8.97 server manager. I've run into a couple of issues I'd like to highlight - but I also have an unsolved issue as well. First of all, its important to note that the underscore character "\_" should not be in a server name. The server manager will not recognize a server with the underscore.
